CLUB ETIQUETTE

MEETINGS

The monthly GENERAL MEETING is usually held on the second Wednesday of each month at 8pm. All members should endeavour to attend the meeting so as to keep up with club matters.

DRYCASTING

Casting is usually conducted on the first Sunday of each month. Instruction is given to all new members and a competition is conducted to improve and maintain the standard of our members casting.

FIELD DAYS

These normally follow each general meeting on the ensuing weekend. It is compulsory for anglers to attend both the sign-on and the weigh-in. Anglers who cannot attend the sign-on for work or other unavoidable reasons may make prior arrangements for a late sign-on. However, only under very exceptional circumstances will failure to attend weigh-ins not be penalized with the loss of points acquired during that field day.

It is the Field Day Officer's duty to inform the committee of any anglers who fail to attend the weigh-in. It is the committee's duty to decide what action is to be taken.

Disputes may be taken to the committee.

Entries for Game Fish badge, Club Records and Open Fishing Competitions must be lodged with the recorder within 30 days of capture.

COMMITTEE MEMBERS

Please notify the Treasurer and Reel Talk Editor of any change of address or phone number.

GENERAL ETIQUETTE

If you intend to resign from the club a letter of resignation should be forwarded to the Secretary.

Please assist the Treasurer by paying your subscription within 28 days of the Annual General Meeting.

Arrears of 3 consecutive months may cause forfeiture of membership.

JANUARY LWE: WAGOE REPORT

Osbornes, Glen, Heather and the D'alonzos decided to make use of the long weekend to give Wagoë a try. D'alonzos camped beside the lagoon, while the Osborne mob had one of McClintocks chalets. This was a necessity, due to Heather having only just come out of hospital on the Friday. As she had her leg in a cast, and Glen still had one hand that was completely useless from the car accident, they had to be content to be the cheering squad. The Wagoë chalets are very, very comfortable, and turned out to be a real blessing with the effects of Cyclone Tina bombing out the coastline.

Peter got his shark on the Saturday Afternoon, while Tony got his three mulloway at the very beginning of lines down time. Conditions got rougher and rougher, so Tony and Pilomena pulled out and went to Hill River on the Sunday morning. The Osborne crew used the time to sleep in and relax, then decided to travel up to Kalbarri and try Chinamans, this being the only place they could find where they could actually stand up and cast without being blown over. The result was one beautiful 11.8 kg mulloway (cleaned), well worth the effort.

Tony and Pilomena found some tailor and other assorted fish at Hill River. Conditions were pretty blustery there too, but they managed to shelter in the lee of one of the points.

So while Wagoë didn't turn on plenty fish, it did turn on quality fish. The Wagoë mob are already looking forward to their next Wagoë trip.

The Re-leys, E.P, Basil Marsh & Mal Kelly and Mandy went up to the Greenough River Caravan Park with high hopes after hearing of the fishing reports of the previous week. The weather was similar to Wagoë with conditions eventually becoming unfishable. They found a number of undersized Mulloway but no fish of any merit. John and family came home early due to the dismal camping conditions. Graham Heeley had a night similar to being on a boat with his camper lifting and rocking around the caravan park.

- FEBRUARY FIELD DAY -
WEDGE ISLAND - PRESTON BEACH

It turned out to be a great weekend for fishing (weather wise). Most people went to White Hills. Here they got tailor and herring. The herring were big and in there numbers. The tailor were not as easy to find but were there. Ian Cook and Derry Barker fished halfway up the White Hills beach and found both the herring and tailor but Peter Osborne and the D'Alonzo fished up at the bite and struggled for their tailor.

Meanwhile the Reeleys went for a drive to Wedge Island for a disappointing weekend. (Out of all of the Reeleys not one fish was weighed in.

ASST FIELDAY OFFICIER
HEATH HOLMAN

BOATS BOATS BOATS BOATS BOATS

We've had a very enthusiastic response to our call for boats, skippers and club members interested in forming a team for the state off-shore the last weekend in March.

Skippers who have volunteered their boats include the Osbornes, Ron Wintle, Bill Harries, and Martie Paul. Crews include Sharon, Heather, Owen, Heath, Derry, Cookie, Malcolm (Head), Graham, Dennis, Eric Bombardeiri, and possibly John Reeley.

Unfortunately Lofty can't help us out as he's booked the Kalbarri house that weekend, so as you can see, we'd really like another boat or even two. Don't forget that for AAA competitions there's a minimum boat length requirement of 4.3metres.

We're going to have a meeting at my house (3 Rowan Place, Mullaico, tel:401-9035) on Tuesday, March 6th, 8pm. This is to co-ordinate boats, skippers and crew.

Please bring along any maps, particular rigs, ideas etc. As stated previously, we're probably best to split our team, so some go for the small stuff and some go out deep.

The competition is on Saturday, March 24th, with Sunday as a standby day in case of adverse conditions. At this time of year and the way things have been going lately, anything can happen.

So see you on Tuesday, March 6th.

Peter.

FEBRUARY DRYCASTING

Hi Folks,

With hot easterly winds blowing straight at us once again casting was made difficult.

Now with Christmas and New Year over how about making an effort to come along members and bring your juniors as the State Drycasting Championships are coming up in 3-4 months time, we will be looking for teams Mens, Ladies, Veterans, Juniors & Mini Juniors, so come along and get some practice in.

Many thanks to Graham Reeley for giving me a hand on Sunday and for looking after things while I was away.

It was good to see John Reeley and his Mini Team back again.

Hope to see you all on March 11th as the first Sunday in March is a long weekend.

CASTING SQUAD

If any member would like to participate in the casting squad which is being formed with a view to selecting a Veteran, Ladies, Juniors and Open team for the 1991 convention drycasting championships would they please contact George Holman on 447 5106.

Even if you are not sure if you can plan that far ahead but you would like to be involved please come forward as the more participating increases the standard all round, creates a lot more interest not to mention comradeship and fraternisation.

As the time passes members will be able to make the decision to whether they can or can't go, but I would still like them to continue to keep the standard of casting up.

Once we have all the names of the people who wish to participate there will be a meeting of the squad to plan our course of action.

A temporary programme would be something like experimentation till July, selection casting until early in 1991 and then team members polishing up and practising until departure late March/early April. Any person dropping out of the team would mean the next qualifier moves up.

Port Lincoln in South Australia is not that far to travel if car loads are planned to keep costs down.

Look forward to a large participation. Give it plenty of thought.

GEORGE HOLMAN

TARIFF:
Members: Off-season \$70 p.w.
 On-season \$130 p.w.
Non-Members:
 Off-season \$120 p.w.

CANS WANTED

Bring your aluminium cans along to General Meetings and give them to MALCOLM HEAD. He will change them into cash for the Club Social Fund.

STING IN THE TAIL

When we started finding little green scorpions in the pool which had fallen in during the night, we wondered if we'd get to see any live ones. Then late one night, walking down our front path in the dark, I heard something skittering across in front of me. Imagine the scene which followed, with me taking off my sandals and using them to bat a huge black stinger back onto the path whenever he tried to head for the garden, at the same time screaming out for someone to bring a container (I wanted him alive of course!). I kept him in a dish for a few weeks, for observation, and found that just like the shark, while they are a frightening sort of creature, they are also a marvel of nature's engineering. We thought they only stung "over the top", but in fact they have a defence mechanism whereby if you touch them from behind (with a bloody long stick) the tail lashes backwards with blinding speed and the sting "nails" anything in the way with such force that the whole scorpion leaves the ground. We fed him a live grasshopper (a what?!?) which he duly hunted, caught, stung and devoured, exoskeleton and all - there was absolutely nothing left next day but little balls of scorpion poop!

He now has a new home, in a jar of formalin....

DIAMONDS IN TH DESERT

We bought a tent and headed several hundred kilometres into the northwest. Talk about miles and miles of sweet buggar all. The desert out here makes the Nully look like a rainforest. Guided by our trusty Indian guide (the compound driver) who knew the spot, we headed off over the sand and pitched camp in a flat, pebble-strewn area. These pebbles vary somewhat - black meteorites(?) the size of your fist, strange green ones like jade, but with the same melted rock appearance, and lots of those white quartz stones we sometimes use instead of lawn back in Oz. And here and there, if you have sharp eyes, you find the diamonds. Not the real thing, but extremely hard, high grade quartz. You hold them up to the sun and check for transparency and flaws. Then the next time you happen to be passing through Bangkok (ho-hum) you get them cut and set. The resulting gems are quite spectacular.

The desert at night was magic, and delightfully cool away from the coast. We didn't do that well with the diamonds this time, but now we are experts, we'll go back in winter and have a serious bash at it.

THE STORIES YOU HEAR

It is said that if you ever get hassled by the law here, and the family's with you, just get the wife to burst into tears and give the kids a goos hard pinch as well so they can join in. The local gendarmes don't like getting into uncomfortable situations with women and kids and will wave you on quickly. Or that's the theory. Heard one story about an American couple. Whenever they were stopped in their car (road-block, etc), she would say something like "Oh officer, please hurry, we've got to get our poor baby to hospital fast!" On one occasion, a sharper-than-usual lawman, on hearing this, peered into the back seat to check out this baby which, of course, was non-existent. Without missing a beat, she also peered backwards and then exclaimed in her best panic-stricken voice "Oh Christ, we forgot the baby!" Hmnmnm.....

Information current at November 1988 - Fisheries Department of Western Australia

1. GROUP BAG LIMIT: A limit of ten per day of any combination of listed species.

2. ACCUMULATED BAG LIMIT: If while fishing you live for several days continuously on a boat you may accumulate the bag limits for these species. Bag limit - no. days aboard x daily bag limit.

3. LICENCE REQUIRED: You must buy a recreational fishing licence if you wish to catch these species (excludes from the Fisheries Department).

4. CLOSED SEASONS: A closed season may apply to these species. Dates sometimes vary from year to year. Watch the press for details, or contact the Fisheries Department.

HOW TO MEASURE YOUR FISH

Use an accurate gauge and follow these diagrams. Put back the 100% ones for next season.

OPEN SEASONS

Rock Lobster: 15 November to 30 June inclusive. The Abrolhos Islands open on 15 March.
 Trout: 1 September to 30 April. Some waters are open all year.
 Abalone: All year except in the metropolitan area.
 The metropolitan season is usually opened between November and mid January, but this may change from year to year. Watch the newspapers or contact your nearest Fisheries Department office for advice.
 Prawns: The Swan-Canning estuary is open from 1 November to 31 July. The Serpentine, Blandford, Harvey and Murray Rivers are closed from 1 May to a date between 1 November and 1 December which is decided each year. Watch the press or contact the Fisheries Department for details.

1 minimum legal size
